⚠️ WARNING

RADIO WAVES

Radio waves may affect electronic equipment or medical devices (for example, pacemakers), which may cause malfunctions and possible injuries.

- If you use a pacemaker or other medical device, consult your doctor or the manufacturer of your medical device before using the wireless networking feature (Bluetooth® and wireless LAN).
- Do not use the wireless networking feature in the following locations:
  - Areas where wireless network use is prohibited, such as in hospitals. Abide by medical institution regulations when using the console on their premises.
  - Areas near fire alarms, automatic doors and other types of automated equipment.

MAGNETS AND MEDICAL DEVICES

This product has magnets which may interfere with pacemakers, defibrillators and programmable shunt valves or other medical devices. Do not place this product close to such medical devices or persons who use such medical devices. Consult your doctor before using this product if you use such medical devices.

VOLUME LEVEL

Permanent hearing loss may occur if the headset or headphones are used at high volume. Set the volume to a safe level. Over time, increasingly loud audio may start to sound normal but can actually be damaging your hearing. If you experience ringing or any discomfort in your ears or muffled speech, stop listening and have your hearing checked. The louder the volume, the sooner your hearing could be affected. To protect your hearing:

- Limit the amount of time you use the headset or headphones at high volume.
- Avoid raising the volume to block out noisy surroundings.
- Lower the volume if you can’t hear people speaking near you.
LITHIUM-ION BATTERY

The controller contains a lithium-ion rechargeable battery. Do not handle damaged or leaking lithium-ion batteries. If the built-in battery fluid leaks, stop using the product immediately and contact the appropriate PlayStation customer service helpline which can be found within the accompanying documentation. If the material gets into the eyes, do not rub. Immediately flush the eyes with clean water and seek medical attention. If the material comes into contact with the skin or clothes, immediately rinse the affected area with clean water and consult your doctor. Do not allow the battery to come into contact with fire or subject it to extreme temperatures such as in direct sunlight, in a vehicle exposed to the sun or near a heat source. Never attempt to open, crush, heat or set fire to the controller or the battery. Do not leave the battery charging for a prolonged period of time when the controller is not in use.

YOUNG CHILDREN INJURIES

CHOKING HAZARD – Small parts. Keep the product out of the reach of young children. Young children may swallow small parts, may wrap the cables around themselves, which may inflict injury or cause an accident or a malfunction.

NEVER DISASSEMBLE OR MODIFY THE PRODUCT OR ACCESSORIES UNLESS AUTHORIZED IN THIS MANUAL

There is a risk of fire, electric shock or injury.

Health and Safety

- Do not use the vibration or trigger effect function if you have any ailment or injury to the bones, joints or muscles of your hands or arms. If you have an ailment or an injury, do not play titles with these features using the controller unless you have set those functions to “Off”. To enable or disable the features, select Settings > Accessories from the home screen of the PlayStation®5 console.

Static shock

When using the headset or headphones in particularly dry air conditions, you may sometimes experience a small and quick (static) shock on your ears. This is a result of static electricity accumulated in the body, and is not a malfunction of your headset or headphones. This effect could be reduced by wearing clothes made from materials that do not easily generate static shock.

Motion sensor

When using the motion sensor function of the controller be cautious of the following points. If the controller hits a person or object, it may cause accidental injury or damage.
- Before using the motion sensor function, make sure you have enough space to move around.
- Firmly grip the controller to prevent it from slipping out of your grasp and causing damage or injury.
- If using a controller that is connected to the PS5 console with a USB cable, make sure there is enough space for the cable so that the cable will not hit a person or object.
